Research and Programs - Susanna Hughes Reck

The following 2007 TRB Annual Meeting sessions have been planned:

- Session - The Role of Marketing in Technology Transfer - Kathleen Bergeron (FHWA) has the lead

- Session - The Shortage of Future Transportation Professionals and its Impact on Technology Transfer – Co-sponsored with Committee on Transportation Education and Training, Melissa Tooley has the lead
Ben Gribbon, Jenelle Derrickson volunteered to assist.
- Workshop - Knowledge Management - Maureen L. Hammer and the Committee on Management and Productivity has the lead

The committee also volunteered to co-sponsor the Eisenhower Workshop poster session. Suggested that we have a committee member speak at their meeting and invite an Eisenhower fellow to speak at the T² committee meeting.

Susanna Hughes Reck will send out a memo requesting input and volunteers to help develop the above sessions.

Other suggestions included:

- Create a subcommittee on students in transportation with the Education and Training Committee.
- Think about sponsoring poster sessions, possibly on new T² methods.
- Involve students in session planning.
- Advertise research in Progress as TRB has added research needs to the database.
- Develop a T² theme for a future TRB annual meeting theme – Cheri Marti and Lisa Pogue will discuss with TRB.
- Assist in developing good technology transfer practices at the annual meeting. Encourage alternative formats for our sessions.
- Encourage international networking, especially for a future international T+ symposium.
- Increase international membership in the committee.
- Work with the World Road Association in exchanging information and sharing best practices.

The Committee's Big issues

The committee and friends then developed ideas for priority topics for committee work in the next year. The top three were workforce development, SHRP II and assessing T² successes.

Workforce Development

- Students
- New T² methods for new audiences, including students
- Best practices
- Multimodal
- Generational diversity

Leadership

- Pat Lees
- Jenelle Derrickson
- Kathy Des Roches
- Stacey Cleary
- Stuart Thompson

SHRP II

- Lessons learned from SHRP that can be applied to SHRP II
- T² Committee involvement in SHRP II Advisory Committees
- Developing tools to ensure that technologies are transferred

Leadership

- Dick Hanneman
- Joe Toole
- Susanna Hughes Reck
- Mike Marti
- Jenelle Derrickson

Assess T2 Successes

- Are people using the technology?
- Change?
- Measure?
- Performance measures for T²

Leadership

- Steve Jones
- Gib Peaslee
- Stuart Thompson
- Kim Fisher
- Jenelle Derrickson
- Lynn Murray
- Eli Machek
- Mike Jones
- Clark Moe
- Josef Mikulik

Leadership groups are asked to develop the following for each topic:

- Goals
- Needs Analysis
- Strategies
- Audience
- Tools
- Resources/Opportunities to Partner

Sessions at International Symposium - Kathy Des Roches

The committee is sponsoring a session on New Training and Technology Transfer Methods and Opportunities - What's new in technology transfer methods, processes and technologies? In this interactive session, you'll see demonstrations of new and innovative ways organizations are already transferring technology. The handout will be posted on the committee's Web site.

Wither the T² Toolbox?

The committee discussed progress on the pooled-fund T² toolbox project and will work with the sponsor states to refine the scope of the project with the current level of support. The following will work to guide the toolbox effort: Nancy Chinlund, Richard Long, Clark Moe, Steve Jones, John McCracken, Joe Toole and Cheri Marti.
